

## 電気情報工学科 Lecture Series 2018

**Time:** 5月15日(火) 17:00

**Venue:** 学術情報総合センター1階 「文化交流室」

**Lecturer:** Prof. Murray Wonham (University of Toronto, Canada)

**Title:** 50 Years of Control Research – A Personal View

**Abstract:** In this talk I will provide my personal perspectives on the control research in the past 50 years.

**Biography:** Wonham received the B. Eng. degree in Engineering Physics from McGill University in 1956, and the Ph.D. in Control Engineering from the University of Cambridge (UK) in 1961. Since 1970 he has been a faculty member in Systems Control, with the Department of Electrical and Computer Engineering of the University of Toronto. Wonham is a Fellow of the Royal Society of Canada, a Life Fellow of the IEEE, and a Foreign Associate of the (U.S.) National Academy of Engineering. In 1987 he received the IEEE Control Systems Science and Engineering Award. In 2000 he was appointed University Professor Emeritus in the University of Toronto.
